Olive up

Are you worried about your child's development, or do you often experience conflicts in family life? Would you like someone to talk to - in your native language too - and are you looking for support?

I support migrant and refugee families, as well as single parents, with children and teenagers mostly aged 11 to 18 - with empathy and professionalism.

I am a social pedagogue with personal migration experience, and I accompany families in a culturally sensitive way and at eye level. Counseling is offered in Arabic and English. It is anonymous, low-threshold, and tailored to your individual needs.

Appointments can take place at your home, at a family center near you, or in our counseling rooms in Pankow.
